# WELCOME

Welcome to our 2019/2020 prospectus and thank you for your interest in Suffolk New College.

All staff are very proud of what we do and our work was publicly recognised at the end of 2017 with a positive Ofsted report that rated us as being 'good'.

We are on a long-term mission to become 'outstanding' by offering everyone who studies with us an exceptional student experience.

Every year we look to expand what we offer and create new facilities that will help enable you to get you to where you want to go. We have great modern facilities - construction centres, a sports centre and a spa along with an on-site restaurant that

has hosted events with award winning chefs. Recently, we have invested in our new engineering centres.

We are supported by many businesses who work with us to offer you a range of real work experiences - both as part of, and in addition to your course - so that you are fully prepared for the world of employment when you start your career.

These industry link ups have seen media students star as extras in a Hollywood film, Music students take part in a live TV show, public service students organise a moving tribute to 'the fallen' during Armistice Day and beauty students show off their skills live on BBC radio.

This prospectus will give you a small

glimpse into this world - a world in which we hope you will join very soon.

If you have any additional questions, we also regularly host taster events so that you can come along and have a look around our excellent campus based near to the picturesque Ipswich waterfront. Our tutors are always on hand to have a friendly chat with you and explain in greater depth what we do and how we do it. Further details are available via our website - [www.suffolk.ac.uk](http://www.suffolk.ac.uk)

Thanks again for showing an interest in Suffolk New College.

Ultimately, we want to help you become the best you can be - we want you to succeed. So get in touch with us and together we can make this happen.

Viv Gillespie

# WHY CHOOSE VOCATIONAL?

If you want to jump on the career ladder and begin earning, a vocational course at Suffolk New College could be the launch pad you need.

Ipswich's leading Further Education provider delivers courses to more than 2,500 young people, taught in industry-standard facilities by tutors with years of experience in their particular field.

The College prides itself on being a fast-track into employment for

those who want to start their career sooner rather than later. The focus from day one is on ensuring that students are equipped with the skills local employers need so they can hit the ground running as soon as they enter the world of work.

It's an exciting time for vocational education, with the profile of the sector sky-rocketing in recent years, largely driven by firms' urgent need for skilled young people.

But it's not just those who want to go straight into employment who benefit from vocational education.

Findings show a growth in the number of students entering higher education with equivalent qualifications such as BTECs, with T-levels and apprenticeships set to boost this further.

# WHY SUFFOLK NEW COLLEGE?

## 1 EXCEPTIONAL PASS RATES

As well as an exceptional student experience we also have exceptional pass rates. Last year saw an amazing 2826 of our students achieving their qualifications. Think, this could be you next year!

## 2 ENGLISH & MATHS ACHIEVEMENT

Last year 80% of students who took a maths qualification gained a positive outcome whilst 79% of students who took an English qualification did the same.

## 3 PROGRESSION TO HE

Preparing our students for Higher Education is a huge priority for us at the College. Did you know that on some of our courses last year, 100% of the students got their first choice University placement?

## 4 OUTSTANDING FACILITIES

At Suffolk New College we make sure you will be using industry standard equipment in beautiful state of the art facilities. It's that simple! Check out our virtual tour on the website or come in for a visit.

## 5 MEANINGFUL WORK EXPERIENCE

You will have a fantastic meaningful work experience placement. We have many employers who regularly engage with the college and a committed work experience team on site that will help you to secure your dream placement.

## 6 SUPPORTING YOUR SUCCESS

Student support at the college is simply amazing, from providing one to one help in the classroom to offering advice, study support and financial guidance in our student services area.

# APPLICATION PROCESS

Hayley Sermons is our Schools Liaison contact at the College and provides support throughout the application process.

Hayley, who is qualified in Careers, Information, Advice and Guidance, has built strong relationships with Suffolk schools, helping hundreds of young people in the process. With her own children at high school she understands the transition into further education.

**"I believe that effective advice and guidance helps young people make an informed choice about their future career path. It is fantastic when young people discover that there is a route into further education or the world of work that is right for them!"**

For more information please contact

GOOD AT MATHS + ENGLISH

## GOOD AT MATHS + ENGLISH

Any student who has not yet achieved a grade 4 (grade C) or above in their GCSE English or maths will study English and maths in their study programme. College study programmes consist of English, maths, a vocational course and work experience.

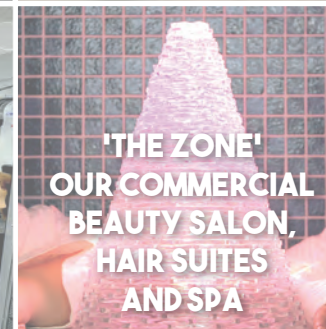

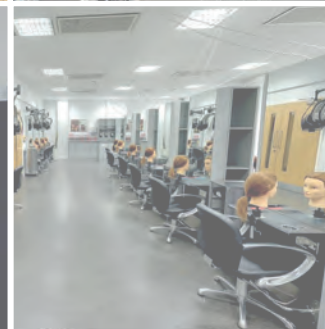

Attendance at English and maths is monitored by both progress and English and maths tutors.

Progression onto the next Level of course will take into account your attendance at all your study programme lessons.

The College English and maths team will support you throughout the year by:

- asking you to undertake a diagnostic assessment to help identify your strengths and areas to develop;
- making sure that you have access to personalised resources, where needed, to help your learning and progress;
- making sure you have examination concessions (such as extra time) if you qualify for them; and
- directing you, if needed, to study skills support.

### DID YOU KNOW?

John Constable specialised in creating works of art that he painted in and around East Anglia. His painting entitled 'The Lock' - that depicts rural life in Suffolk - fetched £22.4m at auction in 2012.

# ART & DESIGN

# ART & DESIGN

If you have painted a picture in your mind and decided to establish a career for yourself in the creative and competitive world of art and design, then you can realise these ambitions by painting and designing in reality, on one of our many courses in this field.

We offer options from level one up to foundation courses that will set you on the road to a career or degree programme.

You will study in our state of the art studios, have the chance to visit galleries both locally and in London and you will be guided towards a career or further study.

We like nothing more than seeing our students achieve so we were thrilled to recently hear about one of our students called Robson Stannard.

Robson ended up having his work showcased as part of an exhibition during New York Fashion Week. He also covered Paris Fashion Week for GQ magazine. Elsewhere, our students have travelled to Amsterdam, seeing the works of Rembrandt and Van Gogh close up.

Our fast paced and dynamic programmes are taught by passionate and talented tutors who are keen to share their experiences with you.

They use their contact books to encourage local artists to come in to give you tips on how to get to the top.

Programmes allow you the chance to specialise in specific industries that incorporate either art and design, media or photography.

## UAL LEVEL 1 ART & DESIGN

🕒 1 Year

Entry Requirements

- Two GCSEs at grade 1 including maths and/or English or demonstrate the ability to work towards Level 1 in maths and English in an assessment

## UAL LEVEL 3 ART & DESIGN ★

🕒 2 Years

### (PHOTOGRAPHY) ★

🕒 2 Years

Entry Requirements

- Five GCSEs at grade 4 (C) or above including maths and/or English or Level 2 qualification with maths and/or English at grade 4 (C) or above (or equivalent).
- Portfolio interview and suitable reference

If you achieve 4 GCSEs at a grade 4 and above (A\* - C) including English Language you can enrol on a one year programme with the opportunity to then progress to the second year.

## UAL LEVEL 2 ART & DESIGN

🕒 1 Year

Entry Requirements

- Three GCSEs at grade 3 (D) including maths and/or English or Level 1 qualification with maths and/or English at Level 1
- Portfolio interview and suitable reference

## UAL LEVEL 3/4 FOUNDATION IN ART & DESIGN ★

🕒 1 Year

Entry Requirements

- Level 3 qualification with maths and/or English at grade 4 (C) or above (or equivalent) or A-Levels (or equivalent)
- Portfolio interview and suitable reference

### **DID YOU KNOW?**

The average cost of a F1 car is \$10m. At five foot seven, Lewis Hamilton is about the average height for an F1 driver. But Felipe Massa is one of the shortest being five foot five. Mark Webber, who still drives but not F1 was just over six feet tall.

# **AUTOMOTIVE**

Life can be the pits in a good way on one of our automotive courses that are taught in fantastic facilities that will prepare you to hit top gear when you start your life as a mechanic.

Whilst F1 is the dream for many on this course, the range of skills we teach you can set you up for a career working by yourself or with others.

This year, students worked with two local big hitting companies (John Grose and Movac) and created paintwork for car bonnets that showcased everything from The Lion King to Marvel comics.

Courses range from level one to level three options and will teach skills in maintenance, repair, technology and much more.

External visits will feature to motor shows and the College is also keen to support the local community as much as possible - therefore community projects will feature.

With the Foxhall Stadium merely miles from the College and with the race track at Snetterton about an hour away, opportunities to see speedway and motor racing may also feature.

Students also take part in skills challenges against other colleges and during the annual skills show held at Trinity Park in Ipswich, our learners have come out on top in the last two years in a pit stop challenge.

## IMI ENTRY LEVEL INTRODUCTION TO VEHICLE TECHNOLOGY

🕒 1 Year

### Entry Requirements

- Entry will be determined by interview. Applicants will need to be motivated and demonstrate a responsible attitude. They will also need to commit to undertaking and attending maths and English

## IMI LEVEL 2 VEHICLE MAINTENANCE & REPAIR (LIGHT VEHICLE)

🕒 1 Year

### (ACCIDENT REPAIR - PAINT)

🕒 1 Year

### Entry Requirements

- Three GCSEs at grade 3 (D) including maths and/or English or Achieved a Level 1 Vehicle Maintenance and Repair with maths and/or English at Level 1

## IMI LEVEL 1 VEHICLE MAINTENANCE & REPAIR (LIGHT VEHICLE)

🕒 1 Year

### Entry Requirements

# BEAUTY THERAPY

# BEAUTY THERAPY

Our beauty students have given treatments live on air to BBC presenters at the Suffolk Show, stepped aboard a cruise liner for a look around a commercial ship (an experience that saw one student get signed up for a job) and they have also helped create make up for our performing arts students ahead of a festive Christmas showcase.

They also went to Ipswich Hospital to help give patients a boost by practising their make-up skills on those who were on the road to recovery after illness.

Giving real life experiences to our students are made all the easier thanks to our on-site commercial hair and beauty salon that includes a spray tan booth and spa.

The spa has a float tank, foot spas, a steam room, a monsoon shower and an aromatherapy room and you will get the chance to showcase your creative flair for hair and beauty treatments - as well your customer service skills - throughout your course.

Our dedicated team all have a wealth of experience that they have learned in business and they will support you throughout all of the courses that we offer that range from level one through to level three options.

External visits to exhibitions and places like Centre Parcs will also feature - as will the opportunity to take part in internal and external competitions.

## CITY & GUILDS LEVEL 1 AN INTRODUCTION INTO THE HAIR & BEAUTY SECTOR

🕒 1 Year

Entry Requirements

- Two GCSEs at grade 1 including maths and/or English  
or demonstrate the ability to work towards Level 1 in maths and English in an assessment

# BRICKLAYING

# BRICKLAYING

The need for new houses in the UK has reached epic levels as the population continues to rise. Therefore the need for more brickwork specialists is a need that is building.

Course options include level one and two with students getting the opportunity to compete in a range of skills competitions throughout the year.

Two of those - Joe Allum and Matthew Bennett - came first at an event that took place at the 2018 Suffolk Show, beating off competition from the cream of the crop based at other colleges in the county.

Our bang on facilities are brilliant for budding brickies of all ages and abilities and this year we hosted a visit by the education minister at the time to see our current students in action.

As a committed College that seeks to help others, we always get involved in community projects throughout the year and we are hoping to help turn a nearby former church into an arts centre in the near future.

As well as taking part in local competitions, you will also be encouraged to enter regional and national events such as SkillBuild. If successful at these events, you have the chance of going on to represent your country at global skills events.

## CSKILLS LEVEL 1 MULTI-SKILLS CONSTRUCTION

🕒 1 Year

## CSKILLS AWARDS LEVEL 1 BRICKLAYING

🕒 1 Year

# BUSINESS

# BUSINESS

We are proud of our business students this year who have gone out of their way to help others as part of their course.

Firstly, they set up a charity dinner on behalf of the national charity Make-A-Wish® UK and raised over £500.00. They then raised over £100.00 for the local charity called Each thanks to the creation of a charity bubble football match.

By working together as a team, and through planning events, marketing and publicising the occasion whilst managing an ever-changing set of circumstances, they were gaining all the crucial skills that you need to be a success in the world of business.

The courses we offer start at level one and finish at level three and we also support many apprentices who gain skills with external companies as well as ourselves.

Whilst many students leave us to go onto university or employment, others look to set up businesses themselves.

Whatever the path it is that you choose, our courses - that attract outside business speakers who come in to mentor and advise - will give you everything you need so that you can walk into a boardroom with Alan Sugar and be confident of getting hired.

## DID YOU KNOW?

One of the biggest businesses in the world is the computer games firm Nintendo. They got the name from the Japanese word Nintendo. Nin (in Japanese) can be translated to mean entrusted and ten-dou means heaven.

## BTEC LEVEL 1 BUSINESS

🕒 1 Year

Entry Requirements

Harrison Ford - who made a name for himself as Indiana Jones and many other roles - started out as a carpenter. As legend has it, he was working on the set of Star Wars (as a carpenter) and managed to get to read a few lines on set to George Lucas who was so impressed with what he saw, he ended up giving the part of Han Solo to Ford.

# CARPENTRY & JOINERY

# CARPENTRY & JOINERY

We want all of our students to be the best and reach their potential and that is why we were delighted that one of our carpentry students (Daniel Smith) took part in a regional skills competition (called SkillBuild) and won against students from across Essex, Hertfordshire, Norfolk and Suffolk.

Daniel will have learnt his craft at our on-site construction facilities that allow our students the time and space to perfect their craft.

Taught by industry professionals, the idea is to get you industry ready so that you can hit the ground running when you leave us and go out into the workplace.

With the UK in desperate need of new houses to help house an increasing population, job opportunities for those that show talent, dedication and are hard working should be plentiful.

We have a varied programme ranging from level one to level three courses on offer - as well as apprenticeships for those who prefer this method of study.

Work experience placements at local and national firms, as well as guest lectures from industry big hitters will also help shape your knowledge as we get you ready to progress into work or further study.

## CSKILLS LEVEL 1 MULTI-SKILLS CONSTRUCTION

According to worldatlas.com the largest restaurant chain in the world is Subway being situated in over 44,000 global locations. McDonalds came second with Starbucks finishing third.

# CATERING & HOSPITALITY

# CATERING & HOSPITALITY

We pride ourselves on offering exceptional experiences for our students and this year, our learners have had the chance to have master-classes from a Michelin star chef who is based in Cambridge (Midsummer House). The TV star chef from this eatery (Daniel Clifford) was so impressed by one of our students that they were offered a work experience opportunity at this delightful food house situated on the River Cam.

Learners also worked closely with a team from an award winning restaurant in Suffolk (The Unruly Pig) and appeared live on radio talking as part at the 2018 Suffolk Show.

Future plans include helping to oversee a charity dinner later this year.

All classes take place in the kitchens and dining area of our on-campus restaurant called Shelley's where students perfect their talents in a range of culinary and front of house disciplines.

We want to help our student's progress and we have many former students who are working in industry right now, cooking up a storm in places like The Ritz.

Course options range from level one to level three and the areas where you can look to specialise will allow you to perfect your patisserie artistry or hone your hospitality skills.

## CITY & GUILDS LEVEL 1 INTRODUCTION TO HOSPITALITY AND COOKERY

One of the most popular films relating to childcare is the surprising hit comedy called Mrs Doubtfire starring the much loved and missed actor Robin Williams.

Although it only cost \$25m to make, it grossed over \$440m worldwide at the box office.

# CHILDCARE

# CHILDCARE

Providing a platform for new generations to succeed and become decent, caring individuals who make a difference is something that we at Suffolk New College instil in our students. It is also something that we want to instil in our students who want to work in the childcare industry.

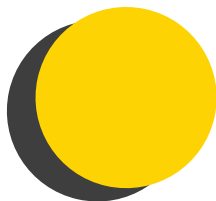

With options that start at level one and continue to level three that will encompass all areas of this industry, from playtime to psychology and legislation to learning.

The opportunities to progress into employment or further and higher education are encouraged and we see many of our students gain jobs when completing their courses with us.

As more and more parents decide to juggle parenthood with their careers, the childcare industry continues to grow in the UK.

During the course, opportunities to gain work experience and the chance to visit local companies so that you can put into practice what we teach are plentiful.

Visits to places like the Nursery World Exhibition and the Museum of Childhood have also featured in previous years.

# ELECTRONICS

From IT to Aerospace, a career in electronics or electrical engineering could see you working for one of the world's biggest brands like Microsoft or advising astronauts who are on an out of this world mission.

Our level three course incorporates everything from component based engineering to computing via science and technology.

We have a superbly equipped electronics laboratory and you will be taught by highly skilled lecturers who want to help spark your careers into life.

If you enjoy making gadgets and like watching programmes like Robot Wars, this course would be perfect for you as modules will allow you to perfect your craft and set your imaginations free.

## BTEC LEVEL 3 ELECTRONIC ENGINEERING ★

🕒 2 Years

### Entry Requirements

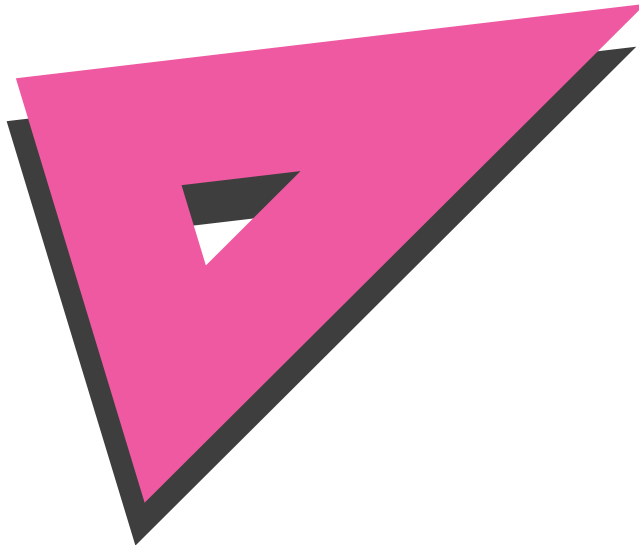

- Five GCSEs at grade 4 (C) or above including maths and/or English and Science  
or Level 2 in a related subject with maths and/or English and Science at grade 4 (C) or above (or equivalent).

\*If you achieve 4 GCSEs at a grade 4 and above (A\* - C) including English Language you can enrol on a one year programme with the opportunity to then progress to the second year.

# ENGINEERING

# ENGINEERING

From boiling a kettle to flying a spaceship, engineers can make the day to day happen and have the power to make your dreams real.

From the tallest buildings in the world to the fastest cars and the biggest boats, engineers shape the world we live in more than they are given credit for.

On our specialist level one, two and three programmes you will have the chance of working in our brand-new engineering suite and fabrication and welding centre if you choose to study on this path.

Courses tend to attract a range of people who are looking to enter a whole host of careers that could see you end up working in the Automotive, Agricultural and Aerospace industries.

We care about our surroundings deeply at Suffolk New College therefore you will also get involved in community projects whilst studying with us and in previous years, students have been on trips to external places of interest such as the engineering technology skills exhibition in Duxford.

## DID YOU KNOW?

The London Eye in England is the largest Ferris wheel in Europe but the largest Ferris wheel in the world is based in Las Vegas Nevada and stands at 550 feet tall.

EMPLOYMENT

# FOUNDATION LEARNING

# FOUNDATION LEARNING

Our Foundation Learning programmes are tailored around you. Our programmes will get you ready for a Level 3 programme or an Apprenticeship by giving you the skills needed to succeed. Your study programme will be completely personalised, if you want to move in to employment then our Moving Forward (Employability Pathway) programme will be perfect for you. On this programme you will develop the skills wanted by employers, undertake a relevant work placement and develop maths and English.

If you are undecided about your future steps then the Moving Forward (Education Pathway) could be for you. On this programme you will focus on developing key skills such as communication, time keeping and confidence. You will get the opportunity to complete a work placement and plan and deliver an enterprise project.

If you want to get to University or study a Level 3 programme, then the Moving Forward Level 2 programme could be for you. On this programme you will complete an Enterprise project, develop critical thinking skills, undertake a relevant work placement and decide your future career plan.

## DID YOU KNOW?

The vast majority of our students go on to further study or employment. Thanks to the fact that all of our courses encourage work experience opportunities, it is worth noting that many of our foundation learners gain either voluntary or paid roles at their chosen places of work.

## MOVING FORWARD (LEVEL 1) EDUCATION PATHWAY

# **GAMES DESIGN**

# GAMES DESIGN

If you are fanatical about Fortnite or Fifa and can't stop playing Call of Duty or Celeste, then our Games Design courses could well be for you.

Our hugely dedicated team includes a BAFTA nominee (Sam) who almost won national acclaim for his efforts in helping to produce the game Gang Beasts.

We encourage creativity and development and we were chuffed that our students won first prize in a regional games jam competition where they had to design a new game from scratch in 36 hours at an event held in Cambridge.

Games Design (that includes information technology) is the second largest industry in the UK after banking therefore opportunities for you to progress are possible in this highly competitive business.

Because our staff have all worked in industry, they will encourage your creativity to be conjured and they will offer you tips, hints and contacts that will enable you to face the future with force.

You will also get to work with real clients on real projects and industry partnerships are actively encouraged throughout.

We offer level two and level three courses in facilities that have recently been upgraded.

# HEALTH & SOCIAL CARE

# HEALTH & SOCIAL CARE

Our level one to level three programmes offer our students who care about others the chance to put their skills into practice on this range of health and social courses.

You can consider a career as a counsellor or a nurse, a social worker or paramedic, a physiotherapist or personal trainer on completion of one of the many options that we teach here in Ipswich.

Thanks to the dedication of our passionate staff who all have industry experience, the grades achieved by our students have consistently been above the national average.

We have very strong links with external organisations such as The University of Suffolk and this allows those who study with us great opportunities to continue their education at a higher level - or go into employment - whichever they prefer.

We also actively seek external and internal talks with employers and our level one learners got the chance to work with a company called Sensing Change who gave an overview on working with people of all ages who have sight related illnesses.

They also had a talk from a mother of five and former Suffolk New College student who came back into education after 25 years. Zoei Malcolm passed on her experiences to others as she continues her new journey that will end with her becoming a full time nurse.

## BTEC LEVEL 1 HEALTH & SOCIAL CARE

**MEDIA**

**DID YOU KNOW?**

Rupert Murdoch is one of the world's biggest media players with an estimated multi billion pound empire that includes ownership of Fox News, The Times, The Sun and The Wall Street Journal.

# MEDIA

Our media students filmed a live music TV show at Ipswich Corn Exchange, created a radio advertising campaign for the College that was used on Spotify, had a presenting masterclass from a TV presenter and some of the group starred in a Hollywood film (Journey's End).

Our 2017 student president (Jordan Barry) wrote columns for the local newspaper and has just setup his own media company - having gained success for creating a charity video on behalf of Greenpeace that has so far received 89,000 online views. He has also created some learning videos to help fellow young people understand complex maths problems.

Giving our students exceptional real experiences are a massive part of our media courses and they get to practice their skills in our fully stocked media department that allows students the chance to practice film making, writing and broadcast talents in our TV and radio studios and dark rooms.

Recent external visits have included visits to the Harry Potter Experience and the BBC.

Programmes range from level to one to level four and students are actively encouraged to gain as much additional experiences as possible. One such student last year, Krzysztof Kotynia, worked for two days on a film based about the life of Winston Churchill.

# PAINTING & DECORATING

The popularity of all of our construction courses continues to rise thanks to the need for more people to enter the industry because of housing shortages in the UK - and painting and decorating is no different.

Our students get to learn a variety of techniques that are taught by skilled lecturers who are keen to pass on their knowledge to you. (Techniques will include finishing, paper hanging and spraying).

We have on site workshops for you to practice your talents.

The College is keen to give something back as much as we can so the chance to work on real life rewarding community projects generally feature.

In previous years, students have competed in competitions where they are given time limited challenges at occasions like the Suffolk Show and SkillBuild, all designed to help you get work ready.

At the 2017 Suffolk Show, two of our students took on other colleges based in the county and came first - with the winners going off into business together on completion of their course.

Options that you can study range from level one courses to level three.

## CSKILLS LEVEL 1 MULTI-SKILLS CONSTRUCTION

Lord Voldemort from the Harry Potter films and the new M from the current James Bond film series - Ralph Fiennes - hails from Suffolk.

# PERFORMING ARTS

# PERFORMING ARTS

Performing Arts students performed three productions this year and also some got the chance to go on a study tour to Barcelona.

We've also had some great successes over the years. A former student recently auditioned for productions such as Hamilton and Legally Blonde. Another starred in the West End show called 'The Curious Incident of the Dog in the Night Time'. Yet there are all sorts of avenues our students go down. For those who don't end up on the stage. Some go into teaching. Others work on cruise ships.

We try and push our students into a theatre school or conservatoire of some kind where they can develop their craft.

Suffolk is a great place to live for Performing Arts enthusiasts with two theatres in Ipswich (the New Wolsey and Sir John Mills), with The Regent and Corn Exchange also showing live works. Dance East also regularly gains plaudits and many other live venues are based in nearby Bury St Edmunds and Colchester.

Staff - including dance teacher Imogen Fraser - have gained years of experience on the stage - and they are keen to pass on their knowledge to enable you to go on and get your first big break.

Former student from 2017 / 2018, Emily Sproxton says it better than we could. "Suffolk New is a fantastic place to learn. When you reach the second year, you will have a fabulous tutor Imogen Fraser. She will try her best to help you. Overall, I would like to thank the tutors at SNC as it has been a blast. Big love SNC".....

# PLUMBING

# PLUMBING

Lord of the Dance hot stepper Michael Flatley, flushed out a career for himself in plumbing. Not a lot of people know that Michael Caine was a plumber before acting. As was the former lead singer and rock and roll star of Black Sabbath, Ozzy Osbourne.

Whilst plumbing might not sound very rock and roll, it would be hard to argue that it isn't thanks to a real need for plumbers in the UK right now.

With a property market in desperate need of new houses in the UK, job opportunities for those who show the desire, knowledge and skills to be a success are very possible.

You will be taught in our fully equipped workshops. Outside of gaining knowledge at the College, industry visits are actively encouraged.

The College is currently developing a brand new Gas Safety Centre which will be ready for September 2019!

Options on offer range from level one to level three.

## DID YOU KNOW?

The age of students who study plumbing with us varies. Last year for example, former office PA and mum of two, Elaine Yellen, gave up her career as a high powered PA to become a plumber. After successfully completing her course, staff at the College were so impressed by Elaine that they have subsequently employed her as a full time technician.

# PUBLIC SERVICES

Every year our public services students perform a Remembrance Sunday parade as the rest of the College proudly looks on.

It is this sense of pride in the College that we want all of our students to feel and our public services students and department are always one of the most active departments in helping to make this happen every year.

With strong links with all the forces, we are lucky to have regular talks from external companies.

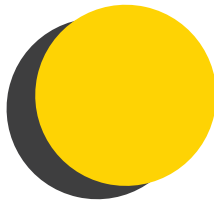

This year, our students have been involved in tackling obstacle courses and also were invited to have a public debate that was hosted by the Mayor of Ipswich.

We also encourage community interaction and this year our learners worked on several charity campaigns including a link up with a local homeless charity.

Strong leadership and teamwork is encouraged by our dedicated staff who have industry experiences on courses that range from level one to level three.

## DID YOU KNOW?

Famous celebrities who spent time in the military include Clint Eastwood, Elvis Presley and Sean Connery.

DNA - a critical part of forensic science these days - has been credited as being invented by Francis Crick and James Watson. Apparently, they interrupted patrons of the Eagle Pub in Cambridge to announce that they had discovered 'the secret of life' thanks to their discovery of a proposal for the structure of DNA.

# **SCIENCE**

# SCIENCE

Scientists have created the telephone, established evolution, made penicillin and the wonder of the universe has been put in the spotlight thanks to the much loved and much missed Stephen Hawkings.

Our level three Forensic and Criminal Investigation course is brand new and has great industry links, it is taught in specially designed labs with the 2018 addition of a mock crime scene space.

Thanks to the popularity of crime TV shows like CSI, Dexter and Sherlock, forensic science is a profession that appears to be intriguing more and more young people and numbers for this year are looking excellent.

Harry John Smy, is overseeing the course and he has gained almost a decade's worth of experience in the field of forensic science. Most recently appearing as an expert on the BBC show 'Murder, Mystery and My Family'.

At the launch of the course, he said, "This course will give students a peak behind the curtain into the world of forensics, where they will learn all the skills they need to gain an apprenticeship, a career or go to university."

## BTEC LEVEL 3 FORENSIC AND CRIMINAL INVESTIGATION ★

🕒 2 Years

Entry Requirements

# **SPORT**

# SPORT

From F1 to Fencing and Grand Prix to the Grand National, this country is undeniably a sport loving nation.

The scenes of 2012 of togetherness and unity during the Olympics were replicated during the 2018 World Cup as finally football dangled a dream of success in front of an ever hopeful nation, before cruelly bringing us back to reality during the semi-final defeat against Croatia.

Yet whilst football didn't come home this time, sport has always been part of our home at Suffolk New College.

Our facilities include a sport centre with multi purpose rooms and five a side pitches offering the chance to play and learn about everything from basketball to badminton and tennis to trampolining.

We offer courses in different specialisms ranging from level one to level three.

Work experience opportunities are actively encouraged and our students are always given the opportunity of competing in events and competitions against other colleges. Last year, our learners took on all comers from the Eastern region and those who do well in an event organised by the Association of Colleges get an opportunity to progress to a national final that takes place in Nottingham.

We passionately believe that sport can help your dreams become a reality - and as the great Mohammed Ali said - 'if your dreams don't scare you, they aren't big enough'....

# SUPPORTED LEARNING

# SUPPORTED LEARNING

We offer personalised programmes that will help prepare you for work, living independently and college life. Whatever your aspirations are we have programmes that will develop your confidence, increase your skills and knowledge and platform to progress.

We will provide you with real opportunities to learn and develop and you will get a chance to study in an incredible friendly and caring environment. Our Personal and Social Development pathway will help you learn independent living skills, managing money and personal care. On our Vocational Studies pathway you will get an opportunity to experience college life through a varied timetable of vocational tasters, which also includes literacy and numeracy.

If you are interested in learning about business and enterprise skills, then do our Enterprise pathway, where you will run and work in our very own stationary and convenience shop. Our Employability pathway will focus on developing the attributes needed for employment as well as undertaking a supported work placement.

# ACCESS TO HIGHER EDUCATION

One of our former students who took this course is on the verge of completing a Masters with a view to progressing onto a PhD and another mother of five came to us after decades away from education (having been written off at school) and now she is well on the way to completing a degree in nursing.

In a nutshell these courses are for 19+ learners who are keen to get back into education with a view to progressing onto a degree programme.

They are an alternative pathway to A-levels - yet offer the same destination of higher education or university.

They attract people of all ages and this has proved to be an incredibly rewarding course for those who want to learn.

The tutors and students who take this course are incredibly supportive towards each other making this an incredibly fulfilling opportunity for those who take it.

## DID YOU KNOW?

If anyone owned the mantra that you are never too old to learn it's a chap called Leo Plass from Oregon. After leaving education in 1932, he returned to it in his later years and gained an associate's degree at the age of 99.

## WHAT IS AN APPRENTICESHIP?

An apprenticeship is a real job with training which would allow you to earn while you learn, all whilst gaining a nationally recognised qualification. Apprenticeships take between one and five years to complete and cover 1,500 job roles in a wide range of industries, from engineering to accountancy, public relations to veterinary nursing. Apprenticeships are now available up to degree level and beyond.

## WHAT ARE THE BENEFITS?

- Earning a salary
- Training in the skills employers want
- Excellent progression opportunities, whether looking to study further or climb the ranks within the workplace
- Increased future earning potential - apprentices enjoy marked salary increases when they complete their training, and those completing a higher apprenticeship could see increased earnings of an estimated £150,000 over their lifetime
- Learning at a pace suited to the individual with the support of a mentor
- Paid holiday

## CONTACT

01473 382464 or email  
apprenticeships@suffolk.ac.uk

## ENTRY REQUIREMENTS

Apprenticeships are available to anyone over the age of 16, living in England. There are different entry requirements depending on the sector and job.

## APPRENTICESHIP LEVELS

There are various levels of apprenticeship your son or daughter could apply for depending on their current skills and qualifications:

- Intermediate apprenticeship (level 2)
- Advanced apprenticeship (level 3)
- Higher and degree apprenticeships (level 4 or above).

## SALARIES

The minimum wage for apprentices is £3.50 per hour, but many employers pay more than this. This is dependant on the sector, region and apprenticeship level e.g. some higher apprenticeships can pay as much as £300 - £500 per week.
